Professional Summary

Results-driven Operator Engineering Trainee (OET) with 8 months of hands-on experience in production operations, quality control, and safety compliance. Proficient in AutoCAD and skilled in optimizing workflows to enhance efficiency. Recognized for quickly adapting to new challenges and delivering measurable results. Passionate about leveraging technology and problem-solving to drive operational excellence.

Skills

- Production Operations & Process Optimization
- AutoCAD Design & Technical Drafting
- Quality Control & Safety Compliance
- Team Collaboration & Cross-Functional Communication
- Problem-Solving & Analytical Thinking
- Machinery Operation & Maintenance

Work Experience

Operator Engineering Trainee (OET)

SKH Metals Limited | April 2024 - October 2024

- Streamlined Production Processes: Improved workflow efficiency by 15% through proactive identification and resolution of bottlenecks.
- Ensured Quality Standards: Maintained 100% compliance with quality control protocols, reducing defects by 10%.
- Enhanced Safety Measures: Conducted regular safety audits, resulting in zero incidents during the training period.
- Collaborated with Teams: Worked closely with cross-functional teams to reduce machine downtime by 20%.
- Operated Machinery: Monitored and operated production machinery, achieving a 95% uptime rate.

Education

- 12th Grade (2021)
- 10th Grade (2019)

Certifications & Training

- AutoCAD Certification - [MSME]
- One-Month Training at UPSRTC - Gained hands-on experience in vehicle maintenance, operational protocols

Achievements

- Improved Efficiency: Reduced production cycle time by 15% through process optimization.
- Zero Safety Incidents: Maintained a perfect safety record during the training period.
- Team Player: Recognized by supervisors for exceptional teamwork and communication skills.

Hobbies & Interests

- Learning New Technologies: Actively exploring advancements in automation and production technologies.
- Problem-Solving: Enjoy tackling complex challenges through analytical thinking and creativity.
- Traveling: Passionate about exploring new places and cultures, which enhances adaptability and global perspective.
